

Population Forum

**1pm, Sunday, May 30
St Marys Band Club
Gt Western Highway St Marys**

Water shortages, over crowded cities, traffic gridlock, dead river systems, loss of farmland, loss of our native animal and plant species

**Can Australia cope with 36 million people by 2050?
7 million people in Sydney is this what you want? Were you consulted?**

Hear our expert guest speakers debunk the myths about the need for a Big Australia and argue why we must stabilise our population

Kelvin Thomson – Labor Member for Wills, Victoria. An outspoken critic of a Big Australia

Mark O'Connor – co-author of *Overloading Australia* and an expert on the need for a sustainable population

This is a free event
