

Dear Brad,

Email to Brad Hazzard  
Friday, 4 November 2011 11:23 AM  
ADI Site Re: Response from Minister Hazzard

Thankyou for the response.

In regards to a meeting we are still very keen to meet with you and can work around your schedule to facilitate any discussion.

In regards to the meeting with your staff on 14th July 2011 Craig Baumann your Parliamentary Secretary was not present. That meeting essentially boiled down to bringing Lee and Brett Whitworth up to speed on the ADI Site issue and also that Minister Parkers Office needed to be involved. Basically we didn't get very far on achieving an outcome on the 100 hectare commitment.

And in regards to Robyn Parkers Office and Dept being responsible for the conservation of CPW at that ADI Site we are very disappointed that, despite numerous letters and phone calls and a brief 10 minute Community Cabinet meeting, her office has failed to respond to any of the issues raised in regards to the ADI Site.

In effect no one from Government is doing anything to stop the clearing of Cumberland Plain Woodland at the ADI Site despite the promise of the Liberal Nationals that if elected it would conserve an additional 100 hectares of that site.

Our legal challenge to Penrith Councils approval of the clearing of a further 59 ha of CPW at the ADI Site has completed and evidence presented by the respondents demonstrates the complete disregard developers and Councils have for considering the NSW and Federal Govts Cumberland Plain Recovery Plan as part of their planning process. Basically they argue that the Recovery Plan may be considered but not necessarily implemented.

I urge you to contact Minister Parkers Office to get her to meet with us (as per our numerous requests) and reps from your office about the ADI Site matter. I look forward to your further response.

Regards

Geoff Brown  
President  
Western Sydney Conservation Alliance Inc
